LIST OF CONTENTS

NUMBER 1

Joseph C. Lam	1	An analysis of residential sector energy use in Hong Kong
V. H. Morcos	9	Performance analysis of industrial bag filters to control particulate emissions
Samuel Gaméda, Clément Vigneault, and **G. S. Vijaya Raghavan**	15	Snow behaviour under compaction for the production of ice
O. M. Ibrahim and **S. A. Klein**	21	Absorption power cycles
Noel D. Uri	29	Crude oil price volatility and unemployment in the United States
M. A. I. El-Shaarawi and **N. Al-Masri**	39	Weather data and heating-degree days for Saudi Arabia
M. Azam Khan and **Gajendra Singh**	45	Energy inputs and crop production in western Pakistan
Reinhard Haas	55	Some empirical findings of an Austrian appliance turn-in program
Roy F. Sutar and **G. N. Tiwari**	61	Temperature reductions inside a greenhouse
Note		
M. Tiris, Ç. Tiris, and **İ. E. Türe**	67	Statistical comparison of models for estimating hourly-diffuse radiation in Gebze, Turkey

NUMBER 2

Chih Wu, Lingen Chen, and **Fengrui Sun**	71	Performance of a regenerative Brayton heat engine
Ralph E. Horne, Nigel D. Mortimer, Robert Hetherington, and **John F. Grant**	77	A comparative assessment of the energy and carbon balance of utilizing straw
Youssef Hegazy and **Jean-Michel Guldmann**	87	Reliability pricing of electric power service: a probabilistic production cost modeling approach
Yaşar Demirel and **Satish C. Saxena**	99	Heat transfer in rarefield gas at a gas–solid interface
W. Z. Khan and **B. M. Gibbs**	105	SO_X emissions from a fluidized-bed combustor with and without limestone addition

Alex H. W. Lee and **Jerold W. Jones** 115 Laboratory performance of an ice-on-coil, thermal-energy storage system for residential and light commercial applications

Thomas S. Lough 131 Energy analysis of the structures of industrial organizations

K. M. Siddiqui and **H. Rajabu** 141 Energy efficiency in current tobacco-curing practice in Tanzania and its consequences

G. Bisio 147 First- and second-law analyses of energy recoveries in blast-furnace regenerators

NUMBER 3

Y. L. Mok and **T. S. Chung** 157 Application of customer-interruption costs for optimum distribution planning

G. Antolín, R. Irusta, E. Velasco, J. Carrasco, E. González and **L. Ortíz** 165 Biomass as an energy resource in Castilla y León (Spain)

M. Abu-Qudais 173 Fluidized-bed combustion for energy production from olive cake

S. M. Sami, Y. Zhou and **P. J. Tulej** 179 A diagnostic expert system for heat pumps

Ş. Dilmaç, S. Topçu and **M. S. Akman** 189 A study of solar ultraviolet radiation at Istanbul

B. S. Yilbas, M. Sami, A. K. Kar and **A. Z. Sahin** 197 First- and second-law efficiencies for laser drilling of stainless steel

A. Steinfeld, C. Larson, R. Palumbo and **M. Foley III** 205 Thermodynamic analysis of the co-production of zinc and synthesis gas using solar process heat

Nebojsa Nakićenović, Paul Viktor Gilli and **Rainer Kurz** 223 Regional and global exergy and energy efficiencies

Book Review
S. S. Penner 239 Biomass for energy, environment, agriculture and industry

NUMBER 4

Ching-Yang Cheng and **Cha'O-Kuang Chen** 241 Power optimization of an endoreversible regenerative Brayton cycle

F. E. Banks 249 Economics of electricity deregulation and privatization: an introductory survey

D. A. Kouremenos, E. D. Rogdakis and **G. E. Houzouris** 263 Irreversible processes in a binary two-phase counter flow

J. M. Hollander and **T. R. Schneider** 273 Energy-efficiency: issues for the decade

G. D. Berry, A. D. Pasternak, G. D. Rambach, J. R. Smith and **R. N. Schock** — 289 Hydrogen as a future transportation fuel

R. K. Bose and **G. Anandalingam** — 305 Sustainable urban energy-environment management with multiple objectives

K. H. Yang, C. H. Su and **R. L. Hwang** — 319 The analysis on intelligent control strategies of a thermal energy storage air-conditioning system

K. K. Zaim — 325 Emissions due to fossil-fuel consumption and cement production in Turkey (1970–1991)

M. B. Richards — 333 Disposition of spent nuclear fuel using the modular helium reactor

NUMBER 5

Jung Soo Lee and **Sang Done Kim** — 343 Gasification kinetics of waste tire-char with CO_2 in a thermobalance reactor

M. Santamouris, G. Mihalakakou, C. A. Balaras, J. O. Lewis, M. Vallindras and **A. Argiriou** — 353 Energy conservation in greenhouses with buried pipes

S. M. Sami and **B. Song** — 361 Performance evaluation of a new four-component HFC blend in a vapour-compression heat pump system

M. Tiris, E. Ekinci and **H. Okutan** — 371 Modelling of SO_2 pollution changes with fuel shifting in Gebze, Turkey

T. Sano, T. Togawa, M. Kojima, M. Tsuji and **Y. Tamaura** — 377 Thermal study on release of lattice oxygen from carbon-bearing Ni(II) ferrite

I. Chambouleyron — 385 Photovoltaics in the developing world

N. Saman and **H. Mahdi** — 395 Analysis of the delay hot/cold water problem

S. Rahman, J. Pan and **A. R. Osareh** — 401 A simplified technique for screening utility DSM options for their capacity and operational benefits

G. R. Zheng and **M. Zaheer-Uddin** — 407 Optimization of thermal processes in a variable air volume HVAC system

T. S. Ravigururajan and **A. E. Bergles** — 421 Optimization of in-tube enhancement for large evaporators and condensers

Book Review
K. Seshadri — 433 Thermal design and optimization, A. Bejan, G. Tsatsaronis and M. Moran

NUMBER 6

Ho-Ming Yeh and **Tong-Tshien Lin** — 435 Efficiency improvement of flat-plate solar air heaters

K. T. Duffy-Deno and **E. Blank** 445 Utility incentives and statistical recoupling: an empirical analysis

Ho-Ming Yeh and **Chii-Dong Ho** 455 Cool thermal discharges from ice melting with specified heat fluxes on the boundary

M. Yaqub and **S. M. Zubair** 463 Thermodynamic analysis of capacity-control schemes for refrigeration and air-conditioning systems

B. Sudhakara Reddy 473 Economic evaluation of demand-side management options using utility avoided costs

J. Zarnikau, S. Guermouche and **P. Schmidt** 483 Can different energy resources be added or compared?

C. Sheinbaum, M. Martínez and **L. Rodríguez** 493 Trends and prospects in Mexican residential energy use

S. Chirarattananon, J. Nooritanon and **R. Balaka** 505 Daylighting for energy conservation in the tropics: the Lumen Method and the OTTV

Book Review
F. E. Trainer 511 Critical comments on *Renewable Energy*

Comment
E. F. Kent 519 "Thermodynamic analyses of the CFC-12 and HFC-134a refrigeration cycles"

NUMBER 7 8

INVITED PAPER

A. J. Appleby 521 Fuel cell technology: status and future prospects

REGULAR PAPERS

H. D. I. Abarbanel, U. Lall, Y.-I. Moon, M. E. Mann and **T. Sangoyomi** 655 Nonlinear dynamics and the Great Salt Lake: a predictable indicator of regional climate

L. Giraldo and **B. Hyman** 667 An energy process-step model for manufacturing paper and paperboard

W. H. Golove and **L. J. Schipper** 683 Long-term trends in U.S. manufacturing energy consumption and carbon dioxide emissions

I. H. Knoepfel 693 A framework for environmental impact assessment of long-distance energy transport systems

Wang Xiaohua and **Fend Zhenming** 703 Survey of rural household energy consumption in China

E. Mills and **A. Rosenfeld** 707 Consumer non-energy benefits as a motivation for making energy-efficiency improvements

S. Göktun 721 Coefficient of performance for an irreversible combined refrigeration cycle

T. Jash and **D. N. Ghosh** 725 Studies on the solubilization kinetics of solid organic residues during anaerobic biomethanation

L. Westerlund, J. Dahl and **L. Johansson** 731 A theoretical investigation of the heat demand for public baths

E. A. Fletcher 739 Solar thermochemical and electrochemical research—how they can help reduce the carbon dioxide burden

NUMBER 9

P. Börjesson and **L. Gustavsson** 747 Regional production and utilization of biomass in Sweden

H. Teng, A. Yamasaki and **Y. Shindo** 765 The fate of liquid CO_2 disposed of in the ocean

S. Messner, A. Golodnikov and **A. Gritsevskii** 775 A stochastic version of the dynamic linear programming model MESSAGE III

R. M. Shrestha and **S. Malla** 785 Air pollution from energy use in a developing country city: the case of Kathmandu Valley, Nepal

A. Sarkar 795 Reliability evaluation of a generation–resource plan using customer-outage costs in India

S. Kumar and **G. N. Tiwari** 805 Performance evaluation of an active solar distillation system

C.-O. Wene 809 Energy–economy analysis: linking the macroeconomic and systems engineering approaches

NUMBER 10

W. Y. Wu, S. C. Saxena, R. L. Trojnarski and **M. V. Morris** 825 Fluidization characteristics of two- and three-dimensional fluidized beds

O. M. Ibrahim 835 Design considerations for ammonia–water Rankine cycle

Ho-Ming Yeh and **Chi-Yen Lin** 843 The effect of collector aspect ratio on the collector efficiency of upward-type flat-plate solar air heaters

M. Abu-Qudais, B. A/K. Abu-Hijleh and **O. N. Othman** 851 Experimental study and numerical simulation of a solar still using an external condenser

P. Tontiwachwuthikul, C. W. Chan, W. Kritpiphat, C. Jordan, D. Skoropad, D. Gelowitz, A. Aroonwilas, F. Mourits, M. Wilson and **L. Ward** 857 Carbon dioxide production from coal-fired power plants for enhanced oil recovery: a feasibility study in western Canada

S. Mirasgedis, J. Makatsoris, D. Assimacopoulos, L. Papagiannakis and **A. Zervos**	871	Energy conservation and CO_2-emission abatement potential in the Greek residential services sector
L. Christiansson	879	Time dynamics of electricity demand in air-distribution systems for commercial buildings in Sweden
S. C. Saxena and **S. S. Dewan**	889	Co-combustion and fluidized-bed incineration of cellulose pellets
Y. D. Caloghirou, A. G. Mourelatos and **A. Roboli**	899	Macroeconomic impacts of natural gas introduction in Greece
Sang Il Park	911	Performance analysis of a moving-bed heat exchanger in vertical pipes
Da-Wen Sun	919	Variable geometry ejectors and their applications in ejector refrigeration systems
T. Kapur, T. C. Kandpal and **H. P. Garg**	931	Solar energy for paddy parboiling in India: financial feasibility analysis
K. Al-Jamal and **S. Khashan**	939	Parametric study of a solar pond for northern Jordan
C. Yildiz, Y. Biçer and **D. Pehlivan**	947	The efficiency of heat exchangers with rotating inner pipes
J. K. Parikh, B. S. Reddy, R. Banerjee and **S. Koundinya**	955	DSM survey in India: awareness, barriers and implementability
F. A. Al-Sulaiman and **S. M. Zubair**	967	A survey of energy consumption and failure patterns of residential air-conditioning units in eastern Saudi Arabia
J. E. A. Roy-Aikins	977	Economic performance comparison of combined-cycle and cogeneration proposals for pipeline application
E. L. Vine	983	International DSM and DSM program evaluation: an INDEEP assessment
Errata	997	

NUMBER 11

List of Figures **v**

List of Tables **v**

Nomenclature **vii**

Preface **ix**

Map of the Asia-Pacific Region **xi**

1. Asia as the Center of Gravity of the World Energy System **999**
Fereidun Fesharaki

2. Economic Assumptions Underlying Asian Energy Markets **1005**
James P. Dorian, Duangjai Intarapravich, Charles J. Johnson, Heather Keevill, Binsheng Li, Widhyawan Prawiraatmadja, Frank C. Tang, and Kang Wu

3. Asia-Pacific Energy Supply and Demand to 2010 **1017**
Duangjai Intarapravich, Charles J. Johnson, Binsheng Li, Scott Long, Shiva Pezeshki, Widhyawan Prawiraatmadja, Frank C. Tang, and Kang Wu

4. China and the Former Soviet Union **1041**
Frank C. Tang and Eugene Khartukov

5. Energy and the Environment **1047**
Cary Bloyd

NUMBER 12

E. L. Vine 1051 Residential building code compliance: implications for evaluating the performance of utility residential new construction programs

B. Johansson 1059 Will Swedish biomass be sufficient for future transportation-fuel demands?

A. Stegou-Sagia and **D. Katsanos** 1071 On isentropic changes of alternative refrigerants (R-123, R-134a, R-500, R-503)

M. A. Rosen 1079 Thermodynamic investigation and comparison of selected production processes for hydrogen and hydrogen-derived fuels

M. Simnad 1095 Has the nuclear power industry risen and fallen or will it rise again?

J. P. Meyer and **M. Tshimankinda** 1101 Domestic hot water consumption by developing communities in South African traditional houses

M. M. Aboabboud, L. Horvath, G. Mink, M. Yasin and **A. I. Kudish** 1107 An energy saving atmospheric evaporator utilizing low grade thermal or waste energy

Surapong C. and **Bundit L.** 1119 An assessment of the potential for cool storage application in the Thai commercial sector

Chih Wu, Lingen Chen and **Fengrui Sun** 1127 Effect of the heat transfer law on the finite-time, exergoeconomic performance of heat engines

D. R. Hart and **M. A. Rosen**	1135	Environmental and health benefits of district cooling using utility-based cogeneration in Ontario, Canada
T. Kodama, Y. Watanabe, S. Miura, M. Sato and **Y. Kitayama**	1147	Reactive and selective redox system of Ni(II)-ferrite for a two-step CO and H_2 production cycle from carbon and water
H. Nakagami	1157	Lifestyle change and energy use in Japan: household equipment and energy consumption
O. Tang and **B. Mohanty**	1169	Industrial energy efficiency improvement through cogeneration: a case study of the textile industry in Thailand
A. Z. Şahin	1179	Thermodynamics of laminar viscous flow through a duct subjected to constant heat flux
A. Stegou-Sagia	1189	Properties of new refrigerants and predictions for condensation heat transfer enhancement with low-finned tubes
Lingen Chen, Fanming Zeng, Fengrui Sun and **Chih Wu**	1201	Heat-transfer effects on net work and/or power as functions of efficiency for air-standard diesel cycles
D. T. Gardner	1207	Flexibility in electric power planning: coping with demand uncertainty
B. Şahin, A. Kodal and **H. Yavuz**	1219	Maximum power density for an endoreversible Carnot heat engine
M. Bojić, N. Lukić and **F. Hrdlička**	1227	Control regions for heat recovery in an industrial building with several hot refuse flows
A. Mårtensson	1233	Operator-guidance systems for industrial processes: a case study evaluating impact on energy use and NO_x control
K. Nishimura, H. Hondo and **Y. Uchiyama**	1247	Derivation of energy-embodiment functions to estimate the embodied energy from the material content
S. Kumar, S. Rubab, T. C. Kandpal and **S. C. Mullick**	1257	Financial feasibility analysis of box-type solar cookers in India
J. G. Maveety and **A. Razani**	1265	A two-dimensional numerical investigation of the optimal removal time and entropy production rate for a sensible thermal storage system
B. Yimer	1277	Thermal radiation effects in phase-change energy-storage systems
R. K. Maikhuri	1287	Eco-energetic analysis of village ecosystem of different traditional societies of northeast India
